

# MDAA Fall Frankenmuth Seminar

Bavarian Inn Lodge, Frankenmuth, MI  
Saturday, October 27, 2018 (6) CE

**Henry Ford Cancer Institute Head and Neck Cancer Program  
Presents**

## *A Multidisciplinary Approach to Head and Neck Cancers*

7:45-8:30 Registration, Coffee, Vendors  
8:30-11:30 (3) CE Lecture  
11:30-12:30 Chicken Luncheon included in registration fee  
12:30-3:30 (3) CE Lecture

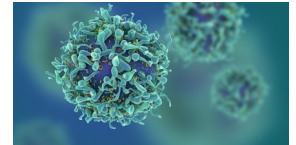

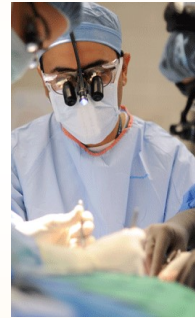

The Ear, Nose & Throat team at Henry Ford Hospital was recently ranked among the top 25 in the nation by U.S. News & World Report on its 2017-18 Best Hospitals list.

### Course Description:

Experienced in the full range of treatment options; Henry Ford serves as a destination center for people from around the country seeking the most advanced options for head and neck cancer treatment. By mastering the techniques of Transoral Robotic Surgery, (TORS), microvascular reconstruction, and laryngeal, “voice box”, preservation surgery, Henry Ford surgeons are significantly minimizing nerve and tissue damage in patients, giving them the chance to tell their survival stories in their own words. The objective of this symposium will be to review all aspects of oral cavity cancer diagnosis, treatments and rehabilitation with presentations from all disciplines involved. Specific attention will be paid to the diagnostic difficulties of oral cavity lesions, cutting edge treatments of challenging cases and how to optimize the rehabilitation of these patients.

### Panel Topics Include:

Presentation of the multidisciplinary approach to head and neck cancer care  
Review of current advanced surgical procedures: Free Flap/TORS  
Presentation of the HPV-related Oropharyngeal cancers  
Discussion of the radiation and chemotherapy effects in oral cancer  
Discussion of the speech and swallowing changes and oral cancer diet  
Description of the psychosocial concerns and cognitive impairment  
Panel will present cases for group discussion

The speaker panel will include head and neck surgeons, radiation oncologist, institute dietician, speech and language pathologist, health psychologist, cancer pathologist and medical oncologist.
