Composites...an Overview

Presented by Diana Lince 1 CE

Diana will be sharing information regarding anterior and posterior composites and what is available in the market now. There will be discussion regarding flowables, bulk fills, universal composites, along with how each material is used. There will be a hands on demonstration and the opportunity to practice in handling materials.

Speaker Bio: Diana Lince is the Area Manager for Kavo Kerr Restorative, Michigan East. She has been in the dental field for 35+ years. She started as a dental assistant, attended Ferris State University and trained as a dental technician and received a BS in Business Administration from Ferris State University. After graduation Diana spent 20 years working for a local dental distribution company as a manager in the equipment department. After the Meer Dental was acquired by Henry Schein Dental, Diana helped open a branch office for a West coast dental dealer, JB Dental. As JB Dental struggled, she took a sales position with Sunstar-Butler, makers of oral care products for the next 3 years until a sales position became available at Kerr Dental. Today she is part of the Michigan Kavo Kerr Restorative team servicing southeastern Michigan.

Breaking the Chain of Infection

Presented by: Kathy Allen 1 CE

Kathy will be covering:

What is needed for infection to take place

Remind personnel of the ports of entry

Discuss the splatter zone and why important to be aware of it

PPE

Proper care and wearing a face mask

Review hand washing

Review housekeeping and clinical disinfecting

Patient perception with an office

Speaker Bio: Kathy Allen has been in the dental field for 30 years, starting as a dental assistant. She has held sales position as a dealer representative and has been with Kerr Corporation since 2008. Kathy currently represents their Rotary Endodontic divisions, as well as the Total Care divisions in Michigan and Indiana.
